

A/B Testing Executive Report

This report summarizes the results of an A/B experiment conducted on 10,000 users to evaluate the effectiveness of Variant B compared to Variant A.

Key Results

Conversion Rate A: 4.93%

Conversion Rate B: 6.40%

Relative Improvement: 29.8%

P-Value: 0.0015

Statistical Power: 88.98%

Monthly Revenue Gain: \$146,944

Annual Revenue Gain: \$1.76M

Recommendation

The experiment achieved statistical significance and Variant B demonstrated a meaningful improvement in conversion rate. Recommendation: Deploy Variant B to production.
